Learn about our Exercise Physiology Group Program:

With the philosophy of exercise is medicine, our membership program provides an individual tailored exercise treatment plan for everyone who joins. We firmly believe that a ‘one size fits all’ approach does not work when managing illnesses and injuries.

We take into account your specific health concerns, needs and goals and apply an evidence-based approach to treatment in a socially welcoming approach.

With our Exercise Physiology Group Program, you’ll enjoy:

- Personalised exercise plans designed by our Exercise Physiologists.
- Access to a dedicated Exercise Physiology Group timetable with Gym and Hydrotherapy led by our Exercise Physiology team.
- Initial Assessment and Quarterly progress and program reviews to keep you on track.
- Full membership access to the venue to use anytime.
